Stitch Glossary

1/3 LPC: Place next 3 sts on cable needle and hold front, p1 from LH needle, k3 from cable needle.

3/1 RPC: Place next st on cable needle and hold back, k3 from LH needle, p1 from cable needle.

3/3 LC: Place next 3 sts on cable needle and hold front, k3 from LH needle, k3 from cable needle.

M1PL: Lift the bar between sts (running st) from back to front and purl into the front of the st.

M1PR: Lift the bar between sts (running st) from front to back and purl, left-to-right into the back of the st.

ssp: slip 1 st pwise, sl another st pwise, place LH needle through back of both sts and p2tog.

Sewn BO: Cut yarn end leaving 12" tail. Place a safety pin in first st on needle and leave until finish. Thread end through yarn needle.

Insert needle pwise through first 2 sts on LH needle and pull through.

Insert needle back through first st on LH needle kwise.

Pull yarn all the way through first st on LH needle, and take st off the needle. First st bound off.

Rep until only one st remains on RH needle. Using the safety pin on the first st, lift it onto the RH needle, slip both sts back onto LH needle, and repeat process once more.

Weave in end.
